

SECURI-PREMIUM

Secure 95g paper without optical brighteners compliant with the CBS1 banking security standard.
With its 16 security devices, it is positioned as the available solution on the most advanced and eco-responsible stock of the Securidoc range.

SECURITY

SECURI-PREMIUM offers a multi-layered security architecture with 16 complementary security levels, combining trusted technologies and advanced innovations:

ADVANTAGES

Thanks to its advanced technology, it allows for the prioritisation of control levels:

Support without optical brighteners, compliant with fiduciary requirements and perfectly readable under UV.

Easy to manage and distribute (reams of paper).

Enhanced protection against chemical modifications, ensuring the integrity of the document over time.

Easily identifiable by its particular appearance.
